The anti-Balou Progress.

New York Tribuna, Oct. 6.]

The anti-Balou meeting held last night in Brooklyn showed plainly that the new movevent has come to stay, and that it appeals strongly to the reason and conscience of a large number of good citizens who never have been able to see the force of third-party arguments. When the anti-Balou movement was started, though its projectors certainly were not professional politicians, the apprehension was freely expressed by the Prohibition organs that it would soon fall under the control of wicked office-seekers and manipulators. If fact, nothing of the major of the name of Abner Doble, and fact the courted fact the state and most included the second of the search of the second of the

way to diminish drunkenness was to consolidate the power of that Democratic party which is the bulwark of the rum power. Naturally rational beings found a this a hard saying, and, as a fact, nine-tenths of them respectfully declined to act upon so wild and suicidal a suggestion. But the anti-saloon programme demands no stultification and no contradictory action. The proposal te control the Republican party in the interest of temperance and good morals is thoroughly intelligible and as thoroughly feasible. It appeals with growing force to conscientious Republicans everywhere. It is the only proposition yet advanced which holds out a clear hope of success in temperance reform. The spirit displayed last night at the Brooklyn meeting proves how strong a hold the new ideas have already secured upon the minds of many prominent members of the party and indicates be yond doubt the steady progress of the anti-saloon movement.

To the Editor of the Times—Six:

My complaint is a small ome, but then again it isn't altogether trivial. The Sixth District Fair Association, which you criticise in your editorial columns this morning, has added regulations this year that are calculated to prevent any noticeable display of women's work at the pavilion, or would have done so had the rulings been understood before anything was offered for exhibition. To illustrate: A housekeeper, ambitions enough to wish to see a goodly showing of bread and bispuit, cakes, etc., in the department alloted to such exhibits, and hoping that he may be able to esprue one or more of the prizes, enters for competition a loaf or two of her own make. Or perhaps it is a finely wrought table cover, or some other uriole of fancy work that she hundy his hinks will help out the general display, and possibly bring honor to herself. For the privilege of display and competition, no matter how trifling the article, she is required to pay \$2 for an exhibitor's ticket, in addition to the 25 cents that she has previously paid in order to gain admittance to the entry clerk's roun.

Now, is this the right course? Can women the majority must be lossers?

Every exhibitor is willing to pay bether admittance fee when she esters her bread or her sembroidery, and when she wishes to attend the fair; but, in my case at least, a season ticket has been saddled upon a person who cannot obtain the time to use it, and care has been taken to make it "on the prevention of the women and the farmers

Being young and adventurous, he resolved to take great risks, and furthermore, being essentially a lucky fellow, he achieved greater renown than his abilities would naturally warrant us to expect. Mr. Bancroft's account of the whole affair is clear and graphic, and withat the most complete and interesting of any ever before given to the public.

A system controlled by the troverment, free to all under the control of no class of persons, and established and maintained by a revenue derived from those only whom the system will benefit.

5. We believe in equal taxation, and to accomplish that desirable reform, we favor the reduction of taxes on the real estate of the cultivator of the soil, and the laying of additional burdens on the inxuries.

6. We would foster and encourage can industries, and to that end would test home productions and manufand inaugurate and maintain a system. and insugurate and maintain a syst would not only exclude the cheap adductions of other countries, but we exclude the cheap laborers of all countries, and prevent them from here to compete with Americans.

A splendid op-portunity to secure valuable property at the trifling cost of \$390 per lot, payable in monthly installments of \$30 cash, and each succeeding payment \$15 monthly, without interest. Forty houses without extra charge. Every purchaser gets a fair and equal chance to obtain one or more of these handsome residences, according as be or she may be the purchaser of one or more lots, the purchaser being entitled to a distinct and separate choice for every lot he or she may buy, and is to choose every time his name is called the most valuable property unrecorded

up to the time his name is so called. The entire tract is beautifully situated, and as the growth of the city is tending rapidly eastward, it is bound to become in the near future the finest residence property in the county of Los Angeles. The whole of these splendid lots will undoubtedly double in value, and those lots fronting on Pasadena avenue and all streets radiating therefrom will beyond question command a high figure, so that the lots themselves are a first-class investment at the price quoted -\$390 each-not to speak of the splendid chance offered to obtain one or more of the valuable residences. The title is perfect. The titles are deposited

in the hands of Rogers, Booth & Co. Purchases of these lots are being made by residents of the adjoining towns, San Francisco, Boston, Chicago, and many of the points East, a large number already being disposed of. Quite a large proportion of the purchasers are ladies, and we especially invite ladies who wish to inquire about this property to call upon us. If you want to secure a good investment at a very small

cost, do not hesitate, but secure one or more of these valuable lots at once. Lots can be purchased, and maps, circulars, and all information may be had by application to

A double-barreled shotgun in the hands of Walter Rogers was discharged accidentally, the shottaking effect in the left arm and shoulder of Chris Warren.
